### —o— MYSTERY IN THE "ACCIDENTAL" DEATH OF EVANSTON MAN

Clinton S. Woolfolk, wealthy Evanston attorney, did not die by accident.

This was decided by Coroner Hoffman and a physician after an examination made under sensational circumstances as the body was about to be lowered into a grave at the Rosehill cemetery yesterday.

Woolfolk's body was found by his wife in the dining room of his home, 1203 Maple avenue, about 11 o'clock Wednesday night.

A shotgun was by his side. The top of his skull has been blown away by a discharge from that gun. His wife testified at the inquest that Woolfolk got up, after retiring, and started to clean his shotgun. She said it must have gone off accidentally. Under the direction of the deputy coroner a verdict of accidental death was returned.

The deputy coroner then became suspicious and took the matter up with Coroner Hoffman. Hoffman and a doctor hurried to the cemetery.

There they made the discovery that the muzzle of the gun must have been in Woolfolk's mouth when "accidentally" discharged.

Coroner Hoffman found that Woolfolk had been insured for \$240,000. He immediately ordered that a new inquest be called Monday.
